SUMMARY

Content strategy, design thinking, IA, interaction design, prototyping, usability testing, user research, web development, and wireframing are right in my wheelhouse. I'm looking for a challenging work environment without glass ceilings that utilizes my experience, knowledge, and skill set. Areas of interest to me are data visualization, enterprise software usability, and service design.

EXPERIENCE

July 2016 - Present
Coraopolis, PA

DICK'S Sporting Goods

Senior UX Designer

- Plan, execute, and iterate upon interaction design deliverables and research
- Provide mentorship on execution of design deliverables and strategic research
- Engage with project stakeholders to translate business requirements into experiences
- Define, validate, and maintain UX patterns and style guides
- Synthesize/Present qualitative and quantitative data into recommendations and strategy

March 2016 - July 2016
Morgantown, WV

West Virginia University (WVU) Libraries

UX Architect

- Conduct, evaluate, and visualize marketing research/usability testing result data for digital collections, web applications, websites, and services
- Facilitate consultation and data mining with clients and stakeholders
- Oversee the user interface design of the WVU Libraries websites, web applications, digital collections, and other web-based resources

December 2013 - February 2016
Morgantown, WV
